CAREER OBJECTIVE

With a background in mathematics and several years of experience as a teacher, I transitioned into data science driven by a strong interest in data and technology. I have since developed practical skills in data analysis, visualization, and machine learning through real-world projects. Motivated and adaptable, I am eager to contribute to innovative, data-driven initiatives that create real business value.

SKILLS

- **Programming Languages:** Python, SQL
- **Development Environments:** Jupyter Notebook, PyCharm, Spyder, VS Code, Google Colab, Coder (Cloud-based IDE with Docker support)
- **Libraries & Frameworks:** Pandas, NumPy, Matplotlib, Seaborn, Plotly, Scikit-Learn, XGBoost, LightGBM, Statsmodels, Xarray, TensorFlow, Keras
- **Data Analysis & Modeling:** Exploratory Data Analysis (EDA), Feature Engineering, Descriptive, Predictive, and Forecasting Analytics, Supervised and Unsupervised Learning (Classification, Regression, Clustering), CRM Data Analysis, Time Series Modeling
- **BI & Visualization Tools:** Power BI, Tableau, Streamlit
- **Tools & Platforms:** GitHub, Bitbucket, Microsoft 365 (Excel, Word, PowerPoint, Outlook)
- **Soft Skills:** Teamwork, Communication, Time Management, Analytical Thinking, Problem Solving, Agile Collaboration, Project Management

LANGUAGE

- **English:** B1 Level

EDUCATION

Marmara University, Faculty of Science, Mathematics, 2010 – 2014

WORK EXPERIENCE

Sahibinden.com, Junior Data Scientist, Mar 2025 – May 2025

During my internship, I analyzed the relationship between website digital engagement metrics and weather conditions. I conducted time series modeling by integrating user behavior data with meteorological variables. Specifically, I utilized the SARIMAX model to forecast the impact of exogenous factors on user interactions. At the end of the project, I presented my findings through a comprehensive presentation.

YenidenBiz Association, Volunteer Data Analyst, Jan 2025 – Present

Contributing to the analysis of data for projects that support women's return to the workforce.

Era Colleges, Mathematics Teacher, Sep 2018 – Aug 2020

Uğur Schools, Mathematics Teacher, Sep 2016 – Sep 2018

Fen Bilimleri, Mathematics Teacher, Sep 2015 – Jun 2016

Reşat Tardu Middle School, Mathematics Teacher, Sep 2014 – Jun 2015

Taught mathematics at high school and middle school levels for six years across four different schools. Emphasized analytical skills and problem-solving abilities. Contributed to curriculum development efforts.

AWARDS

1st Place – UP School & Bitexen Women in Datathon, Mar 2024

- Built a multiple linear regression model to analyze the influence of women's labor force participation, health, gender roles, and political representation on wage inequality.
- Applied logistic regression to examine how gender roles impact job placement.
- Collaborated in a team of three, gaining experience in planning, teamwork, and time management.
- Achieved first place among all participants.

3rd Place – AI for Life Sciences 2 – Gradient Zero & University of Vienna, Jun 2024 – Oct 2024

Participated in a competition organized by Gradient Zero in collaboration with the University of Vienna on the Taikai platform, contributing to a team project:

- Groundwater Level Prediction: Predicted groundwater levels for specific regions in Austria (2022–2024) using historical groundwater data (1930–2021) and external variables. Evaluated prediction accuracy with the SMAPE metric.
- External Variable Identification for GRACE Time Series: Identified external predictors such as weather, precipitation, snowmelt, and surface temperature for five-year GRACE groundwater forecasts.
- Performed data analysis and modeling using Python and relevant libraries (TensorFlow, Keras, scikit-learn, xarray).
- Delivered a source code package and a presentation video summarizing the methodology and results.

CERTIFICATIONS

- Applied Microsoft Power BI, BTK Academy, Oct 2024
- Deep Learning, Turkcell Geleceği Yazanlar, Aug 2024
- Time Series, Miuul, Jul 2024
- Data Science Expertise Certificate, Istanbul Kodluyor Project, May 2024
- Data Analytics Essentials, Cisco Networking Academy, May 2024
- Introduction to Data Science, Cisco Networking Academy, May 2024
- Data Science Bootcamp, Miuul, May 2024
- Data Science Specialization, Ecodation, Nov 2023 – Feb 2024
- Data Engineering Bootcamp, Tech Istanbul – Istanbul Metropolitan Municipality, Apr 2023 – Aug 2023
